JAPANESE BEETLE QUARANTINE

While we are in the Japanese Beetle Quarantine zone, it does not interfere with our shipping. Several intensive inspections have failed to discover any beetles within six miles of our place. All shipments are accompanied by a certificate.

Our stock is in splendid shape. We would call particular attention to our stock of pot grown *Vinca Variegata*. We never had a finer stock or a better variegated strain.

LOCATION

White Marsh is located on the Philadelphia Road, Route 40, U. S. Md., 12 miles east of Baltimore. The Philadelphia Road is the direct route between Baltimore and Philadelphia via Havre de Grace, Perryville, Elkton, Wilmington and Chester.
